EXPERIENCE

Senior Officer (IT & Systems Assurance)

RSM Astute Consulting Pvt Ltd

May 2026 - Present

- Applied multidisciplinary knowledge of IT governance, ERP environments, business processes and statutory requirements to evaluate enterprise risk.
- Correlated technology governance reports and digital activity data to identify patterns, potential compliance violations and business risks requiring further investigation.
- Reviewed audit workpapers to assess evidence quality, identify documentation gaps and recommend improvements to strengthen audit quality, reliability and regulatory compliance.
- Developed Python-based automation to streamline report processing and analyse large datasets for audit and compliance reviews.

Audit Assistant (Risk Advisory)

Kirtane & Pandit LLP Chartered Accountants

July 2024 - October 2025

- Participated in 15+ internal audit engagements across areas such as ITGC, P2P, O2C, Accounts & Finance, Statutory Compliances, Human Resources, performing process walkthroughs, RCM preparation, control testing and IFC evaluations.
- Presented audit observations, risk assessments and mitigation recommendations to senior management including CEOs, CFOs and COOs of listed entities.
- Developed risk-based audit frameworks for ITGC and statutory compliances review for improved audit quality and efficiency.
- Participated in review of related-party transactions across multiple entities of a diversified Indian conglomerate, identifying disclosure and regulatory compliance gaps.
- Leveraged Python to analyse large datasets, identify control exceptions and detect process and compliance gaps supporting risk-based audit procedures.
